### **PRE-OPERATIVE CHECKLIST**

- Kenmore Mercy Hospital will be contacting you to update your records prior to surgery and to schedule pre-operative testing. If Kenmore Mercy calls and leaves a message, please return their call promptly at 716-447-6739.
- During your pre-op visit to Kenmore Mercy, they will need a complete list of the medications you take and the dosages for those medications. **You are asked to bring all medication bottles, inhalers, etc with you to the hospital for review during the pre-op process.**
- Also during that visit, Kenmore Mercy will assist you in completing necessary paperwork, and there may be a brief exam, blood work, a chest x-ray and an EKG

### **MEDICAL CLEARANCE**

- Contact your primary medical provider to schedule a "Pre-op Medical Clearance". Please use those words when scheduling the appointment and make sure that the appointment is 7-10 days before your surgery.
